Stardust® - 60

Stardust® is a pre-painted galvanized steel coated with a 60 µm thermoplastic fluorinated PVDF resin. As the name suggests, it creates a subtle glitter effect to enhance the look of the façade, particularly in sunlight or when spot lit. It is available in either gold or silver sparkle.

- Contemporary metallic finish with added sparkle
- Excellent colour stability
- Highly durable with anti-fouling properties
- Excellent corrosion and UV resistance with up to 35-year warranty
