Flontec® - 50

Flontec®, a unique new prepainted steel that allows repeated easy removal of graffiti. Flontec® is designed to protect against both graffiti and also resists marker pens.

- Once the protective coating has been applied, graffiti can be removed with clear water using sponge, soft brush, cold low pressure power washer according to the nature and size of the surface
- There is no longer a need for hazardous chemicals and no more training or safety issues to clear unsightly graffiti and tagging – with Flontec® anti-graffiti, graffiti can be washed away simply and quickly with nothing more than tap water! Graffiti removal has never been easier

Flontec® is now available on a large scale of the Colorissime range :

- Range Prestige : Intense, Pearl, Irysa®
- Range Texture : Edyxo®
- Range Excellence : R'Unik® et Hairexcel®
- Range Freedom : Hairplus® et Hairultra®

Attention: The nominal gloss of Flontec is 25GU, so the aspect of the chosen pre-painted steel could be slightly modified, especially on the Edyxo range. For futher informations, consult us.
